Water Main Break on Route 677 and Old Gallows Road

FALLS CHURCH, VA. – A six-man Public Works crew is working to repair an 8-inch, cast iron water main break along Old Gallows Road. The westbound right lane along Old Gallows Road has been closed to traffic with one-lane being open to traffic to allow repairs to be made.

At this time, there is no traffic back up resulting from the break, but at 2:30 p.m., water will be shut off for about three hours at three commercial buildings, including a DMV location, located at 1952, 1960 and 1968 Gallows Roads in order to repair the break. City crews expect that repairs will last through 6:30 p.m., but expect to have limited impact to other surrounding routes

Both the fire and police departments for the City as well as for Fairfax County have been notified.

Further information will be provided on this water main break as it becomes available.
